GUARANTEED DATA PROTECTION

- Service includes migration of your data to future generations of LTO data tapes for continued storage
- No commingling of your data
- File integrity checks

RANSOMWARE & DISASTER PROTECTION USING AIR GAP FOR IMPENETRABLE SECURITY

What is Air Gap? It's an electronically disconnected copy of data that defends against cybercrime. Protect your data by using Fujifilm's Media Cloud which leverages air gap to prevent unwanted electronic access to your data. Since a copy of your data is always stored offline Fujifilm provides secure, low-cost data safeguarding.

2 PROTECTED COPIES

FUJIFILM'S SECURE FACILITY

- ISO27001 - Information Security Management System
- ISO9001 - Quality Management System
- ISO4001 - Environmental Management System
- HIPAA Compliant
- Restricted access with monitored surveillance
